All page matting is done leaving a 1/8" edge. I do not give sizes for page mats as this is a personal preference. I have added a corner pocket and tag to one of the version 2 pages but again, this is a personal preference and I have given dimensions in the video on YouTube if you need to reference this.

This is how it sits

Make another flap hinge & flap for the bottom!
Hinge: 6" x 3" Bottom flap: 6" x 5 1/8"

Sorry, forgot to take pics of original pages I made, started to redo and found I had run out of plastic sleeve to complete the second flap ☹️ but you make it exactly the same as the top hinge & flap except for size difference of bottom flap (refer above)

I have done a video on making all three types of pages, the making of the hinges, the creation and covering of the covers, along with a time-lapse video on matting and embellishing
All ten videos (yes, 10) are on Scrapadabadoo's YouTube channel here:
